

# Hiking Trails of Lamoine

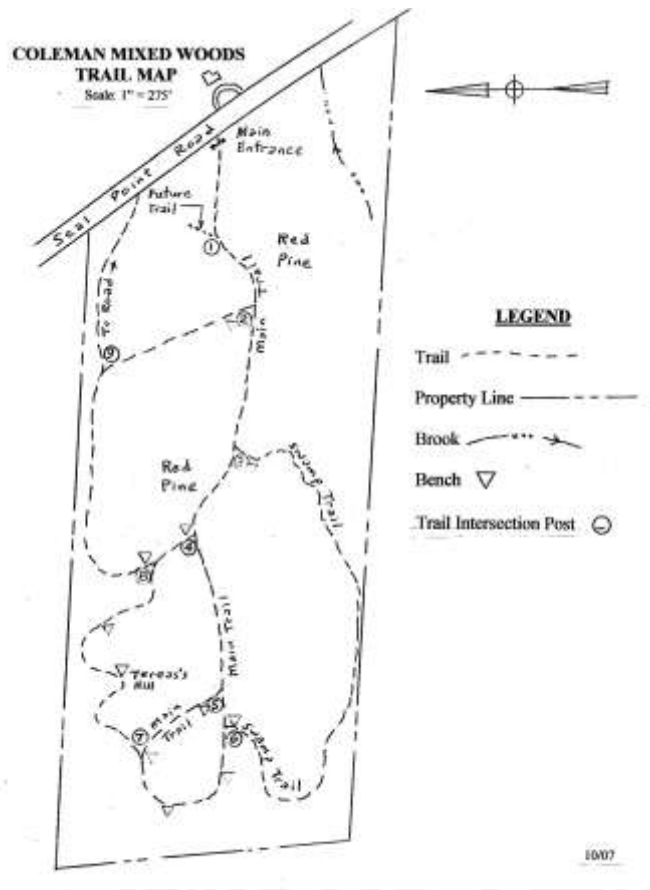

There are several hiking trails in Lamoine, varying from shoreline to mixed forest. Some of these trails are works in progress whereas others are fully established. Many need regular help with maintenance. The following is a listing of trails available to the public and information as to whom to contact if you are interested in volunteering to help establish and maintain these trails. More information about these and any additional trails, will be added as it becomes available.

**Coleman Woods Trail** – This trail system, of just over a mile and a half, winds through spruce, red pine, cedar and swamp within this 55 acre parcel.

**Access Point:**

Located on the left, approximately 1 mile down Seal Point Road from the intersection of Route 204. Limited parking on the side of the road.

**Condition:** Maps are located at the trailhead. The main trail is just under a mile, but you can shorten or lengthen your hike as this main trail offers several loops that shoot off from it. This is an easy hike. Be prepared for some wet areas, which foster some incredible moss lined trails.

**Simon Property Trail** – This trail is a work in progress but offers a variety of wooded-terrain.

**Access Point:** Located on the right of Route 204, approximately eight tenths of a mile east of the intersection of Route 204 and Mud Creek Road, just before McMullens Landscape Construction and Maintenance. A parking lot is planned, designed and laid out by Ken Smith, funding is needed.. Currently parking is limited to the side of the road, watch for the deep ditches and soft shoulders.

**Condition:** This long trail has been cut, cleared and marked with more improvements planned. There is a possibility that this trail could be connected to other trails and may even go as far as Blunts Pond.

**Snowmobile Trails** – The snowmobile trails may be cleared and marked for snowmobiles, but some are groomed throughout the winter for cross-country skiing and some may be hiked in the summer. There are many miles of snowmobile trails that also connect to trails to other areas.

**Access Points:** There are several ways to access the snowmobile trails from the main roads. There is one access point at Latona Springs off Route 184, another access point is off the Mill Road, and yet another off of Asa's Lane across from Blunts Pond. Parking varies but is generally limited to the sides of the road.

**Condition:** The condition of these trails varies greatly, depending on the time that you travel on them and the terrains which they cross.
