NOVEMBER IS READING MADNESS MONTH @ LCS

We have now completed three weeks of our November Reading Madness. Be sure to encourage your child to keep going during vacation!

School Emergency Drills

Every day, we do things to keep ourselves safe. We use seat belts in cars and wear helmets when we ride bikes. We look both ways before we cross the road. Another way we stay safe is by practicing for things that probably won't happen but should be prepared for.....just in case. One way we do this at school, for instance, is by practicing fire drills. Practice helps us know what to do just in case of an emergency. Our students are VERY good at following the procedures for fire drills!

Another kind of situation we can prepare for is when we need to keep safe from a stranger while at school. This would probably never happen but just like a fire drill, we can practice our response so we are prepared. This is called a Lock Down Drill. We will begin practicing lock down drills with our students after the November break. We are sensitive to the feelings that this topic might evoke in parents. Please know that we will approach this with students as just another type of drill we practice at school. It is simply how we practice being prepared....just in case.
