## 1st Grade Robot & Poster Project!

Over the past two weeks students in 1st grade completed this really cool literacy/science project.

Our little scientists created robots out of recyclables and found objects and then created posters that included important elements such as a diagram, title, labels, captions and important facts!

## Kindergarten Screening!!!

### Mayonnaise Jars for Young Minds

The Lamoine School Odyssey of the Mind teams are seeking donations of jars...specifically empty mayonnaise jars. If you have any and you wouldn't mind donating them to some of the most creative kids in Maine, we would be very appreciative! We will be using the mayonnaise jars at our regional competition on Saturday, March 14th. Thank you!

### 4th Grade Iditarod Update!

We have been busy in 4th grade tracking the mushers of the 2020 Iditarod! It took us a while to understand how the sled teams can swap position quickly along the route. We have seen many lead changes and are starting to recognize and root for our favorites! We have also seen 2 teams "scratch" from the race. This means they have removed their team from the race for personal/team reasons. The lead Mushers are currently half way through the 1000 mile course! If you are interested in following along from home you can go to [www.iditarod.com](http://www.iditarod.com) and view the current leader board by going to "Race Center" then "Standings". The Iditarod could potentially finish next week, so stay tuned for another update!
