

The Frenchman Bay Regional Shellfish Program, under the supervision of the municipal shellfish warden, will be harvesting seed clams (<1.5") from the Bar Harbor airport, Trenton restricted area (C47) on 4/30 and 5/1 2011. The seed will be landed at the Trenton Town Landing behind the airport. The seed clams will then be transported by vehicle to Sorrento where they will then be transferred to boats to the planting site at Treasure Island Bar

The Frenchman Bay Regional Shellfish Program, under the supervision of the municipal shellfish warden, will be planting seed clams (<1.5") from the Trenton Town Landing restricted area (C47) within the municipal conservation closure established at Treasure island. The planting will take place on 4/30 and 5/1 2011
