

Comment to the Board of Appeals Town of Lamoine re: True construction

My name is Carolyn Hamm. I own the property on Starfish Lane, which abuts the True property on Marlboro Beach Road.

I just would like to bring to your attention the problem I have had since the Trues started construction on their property.

My property is being repeatedly flooded out. This is a new problem that I can only attribute to the new home and landscaping of the Trues.

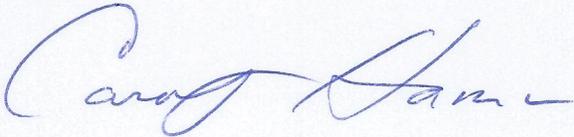

This spring the front of my home(roadside) at 23 Starfish Lane had a build up of water so high that I had to climb over my stairs and jump out into the driveway to get to my truck.

My road is a mess and will continue to erode because of excess water coming off his built up property and high roof.

Recently the True property has been built up even higher and new vegetation has been added. It actually looks like the property is now higher than the town road so water will want to flow into the road.

And when the ground is frozen this coming winter water will flow forcefully to Marlboro Beach Road and into my driveway like a waterfall.

Thank you.

Carolyn Hamm
