Please attach a plot plan drawn to scale. It must show:

3. the location and boundaries of the site and the name and location of all abutting property owners.
4. the existing contours of the land within the boundaries and extending beyond the boundaries for 100 feet; the contours must be shown at no more than 10 foot intervals. The scale used to define the contours must be included on the plan.
5. The location of all existing or proposed access roads and of any existing or proposed temporary structures.

Further requirements according to the current Gravel Ordinance:

6. Attach a description of the proposed provisions for drainage and erosion control.
7. What is the estimated longevity of this pit, based on the removal rate over the 12 months immediately past?  
  
(For a new pit, give your best estimate) \_\_\_\_\_
8. Explain how your financial capacity is enough to allow you to restore the pit after it is no longer in operation.

9. Attach a detailed landscaping and vegetation plan defining how you will restore the pit to as nearly a natural state as is practical by grading, filling, draining and/or planting.
10. Attach copies of your annual statements to the Code Enforcement Officer stating whether 200 cubic yards or more were removed from the pit during each yearly period from October 1 through September 30. One statement per year is required.
11. At the request of the Planning Board, you may need to provide information that indicates any or all of the following: the hydrology, the physical characteristics of the site, the extent of your proposed operations, and compliance with the performance standards of Section 8 of the Gravel Ordinance.
12. Attach a statement of whether you intend to have a washing operation in the pit. If a washing operation is proposed, include any proposal to use ground water extraction from the site to provide for the washing, with a demonstration that the water extraction will not lower the ground water level at the boundaries of the area by more than two feet or will not lower the ground water level to the detriment of existing ground water use.
- 13. Attach a plan for monitoring separation of excavation limits from the average seasonally high water table.**

### CERTIFICATION

The undersigned applicant (and the owner, if the applicant is not the owner) hereby certifies:

- that the information provided in this application is accurate;
- that the estimates made herein are in good faith after a review of the records of the operation; and
- that the undersigned has read and will comply with the Performance Standards set out in Section 8 of the Lamoine Gravel Ordinance.
