

Policy Regarding Application of Funds to Accounts Receivable

Effective Date: June 24, 1992

The Lamoine Board of Selectmen hereby directs that all funds expended through the Town's Sludge, abatements, or other accounts should be applied to those accounts receivables that are due to the Town through liens and taxes. The only exception would be the application of General Assistance funds being applied to those accounts receivable.

All Septic Sludge bills should be checked against all liens, taxes receivable and other accounts due.
